

From Folgueroles to the Trobada spring ¹

The starting point of this itinerary is situated at the end of Font de la Sala street, along the track that runs alongside Folgueroles stream. On your left are the vegetable plots of La Sala, which are irrigated with water from the dam of the Trobada spring ¹, located under the road bridge.

Although the irrigation channel has been replaced by a plastic pipe, the original dam and water distribution gates are still in use. Follow the path to arrive at the Trobada spring.

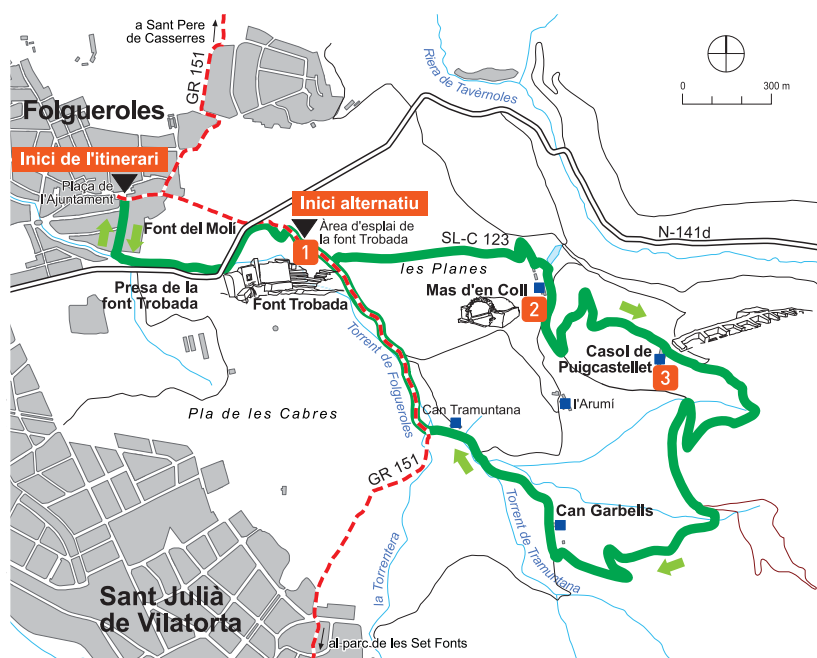

From the Trobada spring ¹ to Mas d'en Coll ² and El Casol de Puigcastellet ³

The route continues along the track that leaves the Trobada spring car park and turns left along a farm road surrounded by the vast fields of Les Planes. The path ends in a wide track, which you must follow to the right towards Mas d'en Coll ². If you continue, you will then reach a flat expanse of greyish silt, which offers panoramic views of Folgueroles, Sant Julià de Vilatorça and the plain of Vic. From here, on your left, take the stony path, which will become flatter further along, leading to El Casol de Puigcastellet ³.

From El Casol de Puigcastellet ³ to Folgueroles

Continue along the wide track that goes down to the fields and pastures of Can Garbells.

Be sure to always close any cattle gates that you go through. Along this section of the route, pay close attention to the signposts, since there are several crossroads. The wide track will take us back to the fields of Les Planes, where you will have to turn back on yourself to reach Folgueroles.

emergències

Distance: 7.4 km

Duration: 2 hrs 30 min

Recommendations:

- Wear appropriate footwear and a hat and bring water and binoculars.
- Do not litter or uproot any plants.
- Try not to disturb wildlife and do not release animals into the wild.
- Respect the activity of the farmhouses and agricultural land that you pass through.
- Watch out for other path users, such as motorised vehicles, bicycles, horses, etc.
- If you notice any incidents along the route, please inform the Park Office: en.guilleries@diba.cat.
